

Wireless Presentation System

Wireless Presentation System is an easy installation, convenient operation and user friendly projecting device. It turns your current Projector into a high-end Projector. With the Wireless Presentation System your Projector become a wireless device and PC/Notebooks will be easier to project screen to Projector.

WPS-710

Plug & Play

Wireless Presentation System is a plug-and-play device which is easy to install and connect with. Any Notebooks/PCs with built-in Centrino or Wi-Fi card can easily download driver and connect to Wireless Presentation System.

Windows Vista™ Compatible

WPS is compatible to all kinds of Operation System, including Windows Vista/XP/2K.

Performance

Wireless Presentation System has the ability to deliver real time animation screens for up to 1280x768 resolutions in 32-bit color depth. It also provides friendly web-based administrating UI for easy configuration and wireless security setups.

Conference control

Supporting multi-users to switch presentation, any member at the conference can easily login to presentation server and switch the computer's screen to Projector without moving the computer to Projector.

Security

Support Login code to protect other users from accessing presentation contents. During presentation, screen images can also be protected by WEP 64/128 encryption.
