Mobility | Wireless | Big Screen

Wirelessly
 bring contents from your phone to
 big screens!

What you see is what you show! Unleash your PDA phone from wires and small screens!

MobiShow allows your Smartphone to show any content to big screens (projectors, TVs, etc.) through Wi-Fi connection. For purposes of business presentation or personal entertainment, MobiShow is your best ShowMate!

Screen Projection 2" → 100" Screens

Project your PDA screen (enlarged) or original PC screen to big displays!

Presentation-to-Go High quality XGA PPT

Interactive PowerPoint presentation with original transition and animation effects. Control bulletins and jump to desired pages from your phone!

Media Center HD media sender

Turn your PC or phone into a HD media sender!
